WePOS – Customer Service transfer

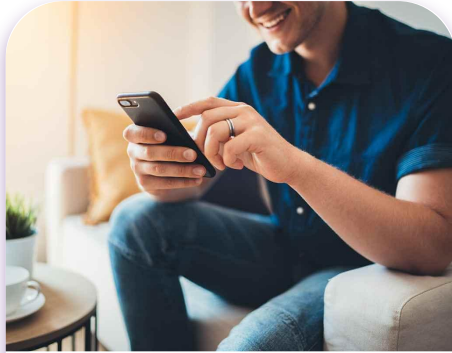

view : [Timeline](#)

- จุดประสงค์หลักของการอบรม
 - สร้างความเข้าใจบทบาทหน้าที่ของทีม CS ใหม่
 - เตรียมความพร้อมเรื่องเครื่องมือ และแนวทางการปฏิบัติงาน
 - วางพื้นฐานสำหรับการทำงานร่วมกับทีม Ascend
- การอบรมจะแบ่งเป็นหลาย session เพื่อให้ครอบคลุมงานทั้งหมด

Session 1

True Coffee : System Overview

- Overview of customer-facing and merchant-facing apps
- Introduction to CS backend system
- Customer journey from order to delivery

Customer Facing App (Android, iOS)

Seamlessly browse products, place orders, make payments, and track their delivery status in real time. Customers can also view their order history, ensuring a smooth and convenient shopping experience.

Merchant App (Android, iOS)

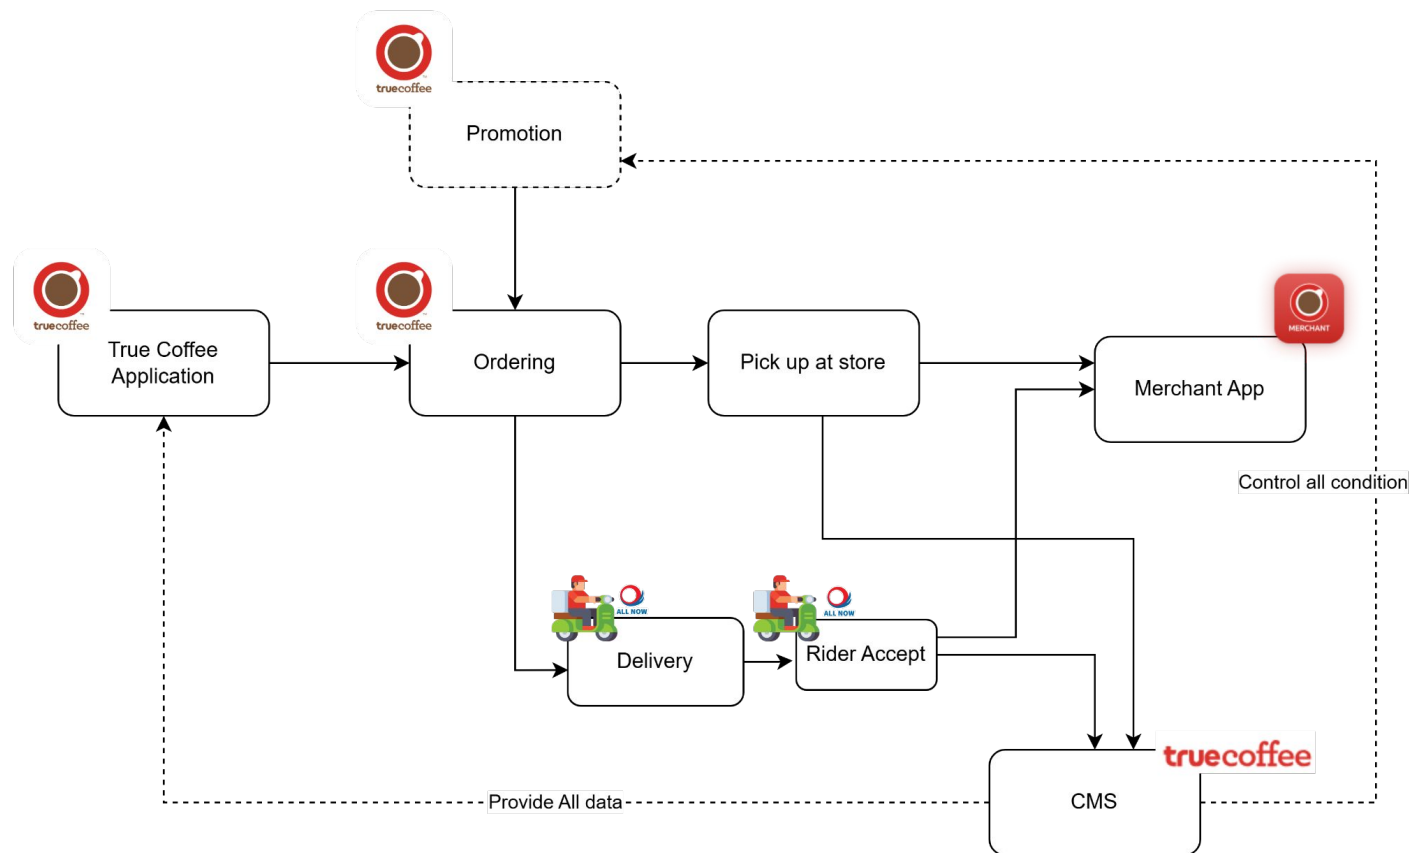

Enable shop owners to receive and manage incoming orders efficiently. Merchants can update order statuses, oversee their store's operations, and manage shop details.

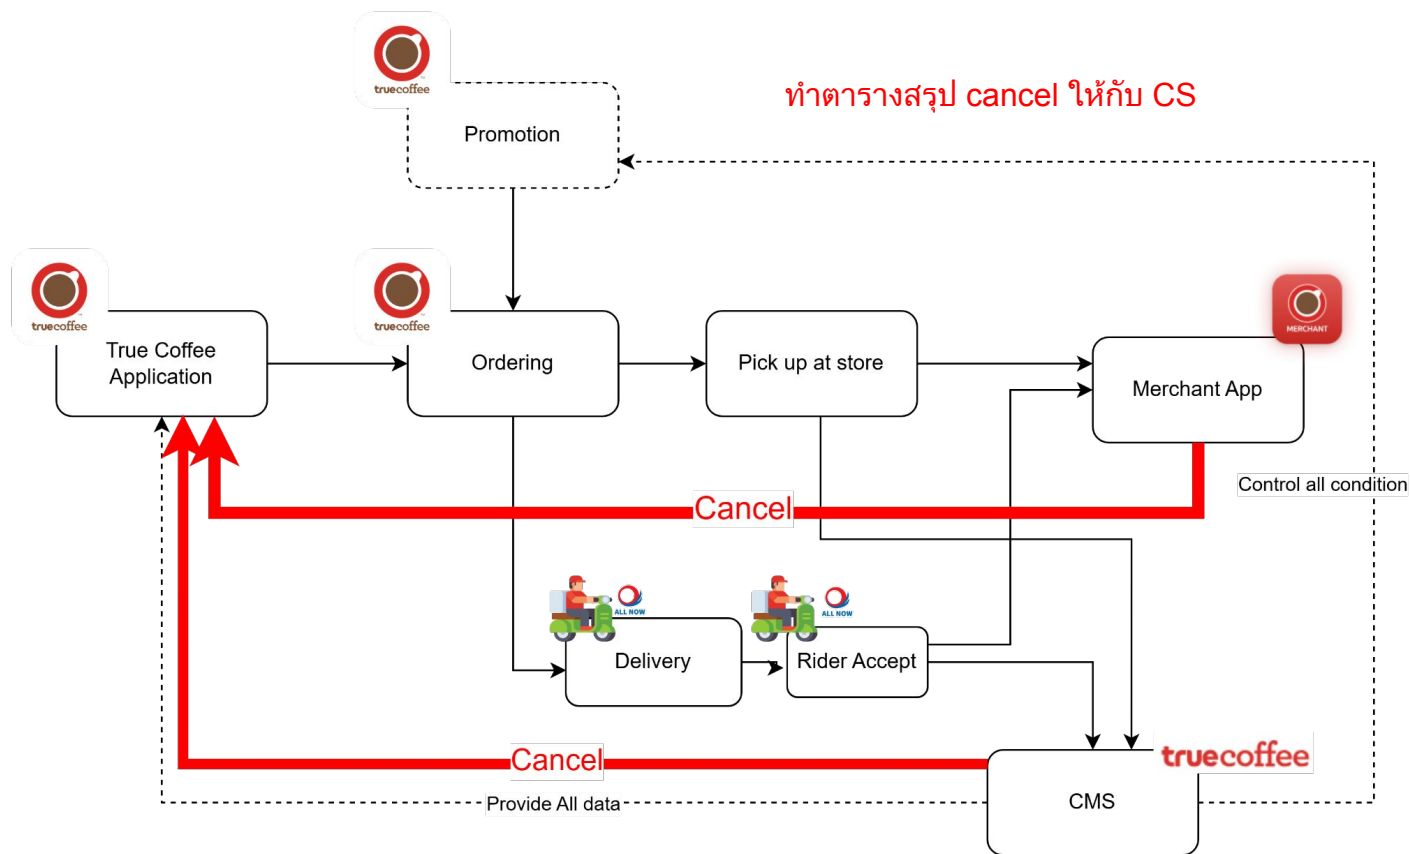

Back Office Website

Designed for merchants and headquarters to manage multiple stores, set up promotions. Also, provide detailed reports on sales analytics, ensuring effective business management and strategic decision-making.
